DECIDE HOW TO SPEND ROAD MONEY FOR JUNE

The road committee of the board of supervisors has prepared the following estimate of expenses for the month of June:

Office expenses, \$451.50; fourth district stables and yards, \$1922.50; fifth district stables and yards, \$410.50; cleaning streets and storm sewers, fourth district, \$931.50; cleaning streets and storm sewers, fifth district, \$312.50; sprinkling streets, \$475; cantonizing work, \$1067; general repairs (various streets and roads), \$839.50; pipe house (making storm sewer pipes), \$567.50; quarries, \$1902.50; stray police, \$30; Dole street (cleaning and weeding), \$500; Mokuauia street (grading), \$1000; Kalili Valley road (surveying), \$350; Nuanu avenue (widening, curbing), \$400; Nuanu avenue (widening, construction), \$1250; Wyllie street storm drains, \$1000; new thirty-six-inch pipe forms, \$200; emergency fund, \$370. Total, \$14,000.

The estate of the late Senator Stephen B. Ekins of West Virginia has been appraised at over four million dollars.

WILL REPORT TO COMMISSION

SCHOOL INSPECTOR WILL TELL OF THE TROUBLE AT KALIHU-WAENA.

(From Saturday's Advertiser.)

School Inspector Gibson stated yesterday that owing to press of business in the office he has not been able to pay a third visit to the Kalihū-waena School to further inquire into reports that pupils have used impudent language to teachers, have gambled for pencils and otherwise have behaved in such an unbecomingly manner as to lead a number of the pedagogues detailed there to apply for transfers.

The inspector has made two personal visits of investigation and has had Principal Cox and the other teachers before him, in an endeavor to get at the bottom of the trouble. He may be able to make another call before presenting his report to the commissioners of public instruction, who will meet to-day and will continue in session for perhaps three days, not including Sunday.

Mr. Gibson stated yesterday that he expected to present his report, dealing with the Kalihū-waena School among others, on Monday.

Ask for Transfers.
Superintendent W. T. Pope, when asked yesterday as to the number of transfers applied for throughout the Territory, stated that a large number of applications are always made each year for changes and there has been no falling off on this occasion.

The board will start its meeting at nine o'clock this morning. It is probable that the matter of assigning teachers for the next school year will not come up at all today, there being many other matters to engage the attention of the commissioners which will possibly be taken up first. It may be Tuesday before the final list is ready.

All Commissioners Ready.
All the commissioners have signified their intention of being present. They are:

William H. Rice of Kauai, Mrs. May T. Wilcox and Judge W. L. Stanley of Oahu, W. O. Aiken of Maui and Mrs. Ella H. Paris and John T. Moir of Hawaii.

The first matter to be considered will be the superintendent's report on the workings of the department since the last meeting of the commissioners. The question of the school lands that are being arranged for with the department of public works will also be discussed, as will the plans for the summer school now being organized.

Sale of School Books.
An important matter in connection with departmental work is the decision to go out of the business of selling school books. The department has arranged with booksellers downtown to handle school books at list price, in other words, at the same figures that the department has been charging. They have entered into an agreement with the department of public instruction not to charge higher prices than the department would. Should any of them break the agreement the department will resume the sale of books.

The idea of the government in having the department sell was so that people might get the school books at list price, and it is the intention to see that there is no rise in prices.

GOVERNOR REPLIES TO SOME CRITICISMS

EXPLAINS REASON FOR ATTORNEY HEMENWAY'S JOURNEY TO NEW YORK.

"There are undoubtedly some people who would prefer to jeopardize nearly \$4,000,000 of bonds, besides various public improvements, rather than pay a bagatelle of \$1090 a month and expenses to a qualified attorney."

In these words Governor Frear replied yesterday to criticisms made by some of his political opponents to his appointment of Attorney Charles E. Hemenway, who is accompanying Treasurer Conkling to New York in order to look after the legal work in connection with the flotation of the first part of the bond issue authorized by the legislature at its last session.

"There seems to be an impression that Mr. Hemenway has gone to render an opinion on the bonds," added the Governor. "He has gone for nothing of the kind. He is to do the preliminary work in connection with the issue. I hope that through him the legal expenses at the other end will be reduced."

The Governor added that he thought Treasurer Conkling did quite right in engaging Mr. Hemenway, as he considers there is no one better up in the laws of the Territory. He added that while only \$1,500,000 worth of bonds are to be floated this year, there are sure to be a great many legal questions involved, and Mr. Hemenway's work on this trip will stand good in the case of other flotations.

"In other words," concluded the Governor, "the remainder of the \$3,500,000 can be floated without any similar items of expense."

WATERHOUSE ACCOUNT FILED BY EXECUTORS

NO INHERITANCE TAX PAID AS DEATH OCCURRED BEFORE LAW APPROVED.

(From Saturday's Advertiser.)

William Waterhouse and Albert Waterhouse, executors of the will of the late Henry Waterhouse, filed their first and final account yesterday, and Judge Whitney of the circuit court set June 10 as the day for its consideration. The inventory gives details of the real estate left by the deceased and the personal property in the shape of stocks, notes, etc. The executors charge themselves with receipts amounting to \$134,490.04 and ask to be allowed the same sum for disbursements.

As Mr. Waterhouse died on February 20, 1904, and the new inheritance tax law was not approved by former Governor Carter until April 20, 1905, the executors say that no inheritance tax is due.

Henry Smith, trustee under the will of Charles Titcomb, filed his fifth account yesterday in the circuit court. The total inventory of the estate is placed at \$4000. The trustee charges himself with receipts of \$1089.47 and asks to be allowed for expenditures of \$1089.45. The payments include allowances of \$210 each to Mrs. Susan Berlemann, Mrs. Mary Ann Fiddes, Mrs. Emma Dreier-Clark and Mrs. Hattie Weber.

William Henry, administrator of the estate of J. Hapainui, deceased, filed his third annual account yesterday. The estate is valued at \$5207.23, with which sum the administrator charges himself, and he asks to be allowed \$584.54 for disbursements.

Love Divorces Love.

Love seems to have departed quickly from the home of Lily Love and Joseph H. Love of Waipahu, for the former was granted a divorce yesterday by Circuit Judge Robinson on the ground of extreme cruelty. The pair were married here a recently as last March. In her complaint Mrs. Love says her husband threatened to kill her. She also sets out that after their marriage Love allowed her to go to the store and obtain credit in his name for all necessities for running their house, but shortly thereafter Love gave orders that no credit be extended her. Later, she alleges, he drove her from the house. Afterward, she asserts, he visited her and asked her to return home, and while she was preparing to do so he told her he was desirous of her returning so that he could shoot her. He was put under bonds to keep the peace, she says.

Questions Jurisdiction.

Marie Adelaide Bettecourt Brözo de Sequira Encarnacao of California has retained E. M. Watson to act for her in the suit instituted by Francisco S. Borges against her, to cancel and annul a deed. Attorney Watson filed a motion in the circuit court yesterday to dismiss the action. He gives as the reason "that it appears the court has not obtained jurisdiction over the person of this defendant—the cause of action, as stated in and by the complaint filed herein, if any is so stated, being in its nature transitory and not in rem but in personam." The motion will come before Judge W. J. Robinson at 9:30 o'clock this morning.

Pardoning Power Invaded?

The supreme court heard further arguments yesterday in the matter of John A. Cummins, who seeks to compel the territorial auditor to issue him a warrant for the payment of \$5000, in remission of a fine, as provided for under act 144, laws 1911, of the legislature. The argument was upon the question whether the act is invalid as being an invasion of the pardoning power, such power resting, under the Organic Act, with the Governor. Lorin Andrews argued on behalf of the claimant and Attorney-General Lindsay on behalf of the auditor.

Supreme Court Session.

The June session of the supreme court will begin on Monday. There are six important cases on the calendar at present. These are:

In the matter of the guardianship of Hildreth Castle Hitchcock, a minor; reserved question from circuit judge, fourth circuit; attorney-general as amicus curiae.

James Cornwell et al. vs. Wailuku Sugar Company; error to circuit court, second circuit; J. Lightfoot for plaintiffs-appellants, Kinney, Prosser, Anderson & Marx for defendant-appellee.

William K. Uku, a minor, by his next friend, William Uku, vs. Elizabeth Kaio et al.; exceptions from circuit court, fifth circuit; Thompson & Wilder for plaintiff-appellant, Kinney, Prosser, Anderson & Marx for defendants-appellees.

Territory of Hawaii, by Marston Campbell, commissioner of public lands, vs. Kapiolani Estate, Ltd., et al.; error to circuit court, first circuit; attorney-general for plaintiff-appellee, C. W. Ashford for Kapiolani Estate, Ltd., defendant-appellant.

Territory of Hawaii vs. Furubayashi; reserved question from circuit court, first circuit; John W. Cathcart and F. W. Milverton for plaintiff, Magoon & Weaver for defendant.

Kapuhonua Kekoa et al. vs. Mark P. Robinson et al.; exceptions from circuit court, first circuit; W. C. Achi and T. M. Harrison for plaintiffs-appellants, E. C. Peters for defendants-appellees.

CHILD'S VITALITY AMazes PHYSICIANS.

NEW YORK, May 17.—Physicians are mystified by the case of Ella Campbell, sixteen months old, who is a patient in the Florence Crittenton Home, in Paterson, N. J. The child is suffering from an ailment resembling tuberculosis, but the attending physician, Dr. V. J. Bergen, says no one has been able to really diagnose the illness. Last Wednesday mortification set in, and the child's body is now in the condition of one dead several days. It has been necessary to isolate her.

Although her body is lifeless and immovable, the child is conscious and recognizes those about her.

EXCELLENT WORK FOR CHILDREN

PLAYGROUND PROVES ITS USEFULNESS IN FIRST MONTH.

(From Saturday's Advertiser.)

Gathered in the main room of the Muriel Kindergarten, the one bright spot in that sea of squalidness known as the Kakaako slums, the members of the Free Kindergarten and Children's Aid Society listened to a number of encouraging reports yesterday morning and had the added pleasure of watching the presentation of diplomas to three recently graduated kindergarten teachers, young ladies who have spent two years in preparing themselves to carry on the good work among the swarming children of the tenements.

The Muriel Kindergarten, erected by Mrs. Richards in memory of her little daughter, after whom the school is named, is a decidedly attractive school, clean, airy and beautifully fitted up, an example in sanitation and cleanliness needed in Kakaako and at the present time in the neighborhood conspicuous in its dimness. Here were heard the reports of the progress of the kindergarten work in the other sections of the city and the reports of what is being attempted and done for the children outside the regular school premises.

Playground Work.

Particularly encouraging for the workers was the report made by the chairman of the playgrounds committee in connection with the marked success that has attended the opening of the children's corner at Smith and Beretania streets. This playground has been open for only a few weeks, yet already it has been a boon to the children of that neighborhood. During the month of May there was an average daily attendance of two hundred and thirty-one children, the total for the month being 7167. On May 1 only ninety-four little ones appeared to enjoy the swings and the sandboxes, the grass and the shade. May 28 called out the record crowd, there being five hundred and forty children playing on the ground that morning and afternoon. In many instances the children are accompanied by their mothers, who rest on the benches, or bring their needle-work and enjoy the freshness while their babies play, secure from joy-riding autos and the other perils of the street.

The playground is looked after by a janitor and a competent matron, who keeps on hand simple remedies and salves and bandages, which are used on the little ones as occasion require. There is also soap and water on hand and first aids to the dirty are given. The children are taught to take care of themselves and to keep comparatively clean, as well as being taught how to play.

Knowing how to play is something which should be spontaneous in children, but with the mites of the tenement district it is not—more the pity. As a consequence the little visitors to the playground have to be taught the very elements of childish games.

Moving Picture Improvement.

During the meeting there was a discussion of the effect of the moving picture shows upon the children, the consensus of opinion being that there had been marked improvement in the quality of the moving pictures shown during the past two months. It was stated that the various vaudeville stunts could be improved from the moral standpoint, particularly in the matter of popular songs.

The Graduates.

The kindergarten graduates to receive diplomas were Miss Marie Haefner, Miss Vera Damon and Miss Eva Boardman. Miss Lawrence made a short address to the graduates on presenting them with their certificates of proficiency and Rev. Frank Damon also spoke.

Yesterday's meeting of the association will be the last until the next school session, in September.

ROAD APPOINTMENTS CAUSE MORE TROUBLE

The road committee was up against the mayor at the meeting of the supervisors last night, as he refused to put a motion presented by Sam Dwight refusing the appointment of James K. Paole as road superintendent in the district of Koolapoko. Finally, however, the motion was withdrawn, and the matter is to be brought up again Tuesday.

When the mayor asked for the committee's reasons for not appointing Paole, Dwight said that it was on the ground of incompetence. The mayor and Eben Low started in for one another then, and the former objected to Low saying that it was a matter of politics. It was the same old thing that has now been going on for the last five months.

Sheriff Jarrett wrote, saying that he had accepted the offer of the Schuman Carriage Company for the E-M-F automobile. One of these has already been delivered and the other is coming from the Coast.

The engineer reported that the Athletic Park management would have to fill in the ground to the level of the road before any efficient drainage could be carried into effect.

NOTHING UNPLEASANT.

Chamberlain's Colic, Cholera and Diarrhoea Remedy not only cures promptly but produces no unpleasant after effects. It is the world's most successful medicine for cramps in the stomach, and for bowel complaints. For sale by all dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

WANT HAWAII TO JOIN CONVENTION

MARYLAND FOLKS SAY "SEE AMERICA FIRST" IS THE BEST.

Governor Frear has received a letter from Governor Austin L. Crothers of Maryland in connection with a "See Europe if you will, but see America first" convention, that is to be held at Baltimore from January 22 to January 27, next. He has forwarded a copy to the Hands-Around-the-Pacific Club and states that he will be glad to accept any suggestions in regard to the matter from them.

The letter was considered at a meeting held yesterday afternoon, and it is very much in line with the "Around America" train idea, on which the club is working. A committee consisting of Prof. W. A. Bryan, John M. Giles and A. H. Ford was appointed to take up further consideration and report back to the club. The idea of seeing America first is also in line with the work being done at Spokane, which Victor M. Smith told of at the lunch given to Percy Hunter during his last visit here.

In his letter, Governor Crothers says: "As you know, it is estimated that some hundreds of millions of dollars are spent annually by Americans in foreign travel and tens of thousands of our people go abroad constantly who really know very little about the interesting features of their own wonderful country. This is especially true of the people of the East. Those who go abroad, as well as those who stay at home, do not realize the attractions and educational value which the various States and Territories have to offer in the way of travel and sightseeing, nor do they appreciate the great commercial and social advantages which spring up from a wider intermingling with their fellow countrymen."

"The object of this convention is to enlighten our own people and such visitors as we may have on such general points. In this way a wider community of interests can be cultivated and travel stimulated."

"If you are in sympathy with the movement I would like to suggest that you appoint a committee of twenty-five of your representative citizens as delegates to take up with our committee the question of having Hawaii properly represented in this convention."

The Governor then goes on to deal with the matter of expense and details. The convention is being gotten up by the business men of Maryland, and particularly of Baltimore.

PETITION STARTED FOR MAHUKA SITE

(From Saturday's Advertiser.)

Several citizens who favor the Mahuka site for the federal building started yesterday to circulate a petition, addressed to the Delegate, protesting against any change being made in the location and asking that "the plans already adopted be carried out." Among those who are said to be instrumental in having the petition started are William Walters, C. C. von Horn, J. A. and L. L. McCandless, George W. Smith, R. W. Shingle and A. N. Campbell. The petition reads as follows:

"Whereas, the United States Government has purchased the so-called Mahuka site for the purpose of erecting a federal building; and

"Whereas, a congressional appropriation has been made for securing additional area necessary to properly carry out the plans of the federal architects for the erection of said building; and

"Whereas, the commercial bodies of this city are on record as favoring the said location as being the most central and advantageous for all concerned; and the business interests have further shown their approval by raising a fund of \$35,000 for the opening up of Bishop street, so-called, as required by the federal government in connection with this said site, which transaction, it is submitted, has the force and effect of a contract between the government and the parties contributing to said fund; and

"Whereas, an effort is now being made to have said location abandoned and another site selected, thereby causing a great delay in the erection of said building; now, therefore,

"We, the undersigned, residents, taxpayers, business men and citizens of Honolulu, in the Territory of Hawaii, strongly protest against any change being made in the location of said building site, and do hereby earnestly petition that the plans already adopted be carried out to the end that said federal building may be erected at the earliest possible date upon the aforesaid Mahuka site.

"To the Honorable J. Kalamianale, Delegate to Congress from the Territory of Hawaii.

"Dated, Honolulu, T. H., June 1, 1911."

ONE DEAD, TEN HURT IN STAGE RUNAWAY

YOSEMITE VALLEY, June 5.—Six runaway horses dragged the Yosemite stage down one of the hill roads in this valley yesterday and in dashing around a curve the coach was upset and R. S. Liccaring of Allentown was killed.

The stage was filled with tourists out to see the geysers when the accident happened and ten of them are injured, some of them seriously. Only a few escaped without being hurt.

BRECKONS GETS DOPE AT HILO

DISTRICT ATTORNEY OBTAINS MUCH EVIDENCE AGAINST "OPIUM RING."

"We got some of the real dope and we know how the smuggling of opium has been handled at Hilo," is the way United States District Attorney Breckons yesterday summed up the results of the visit of himself and Marshal Hendry to the Island of Hawaii, which visit caused great consternation to the "opium ring." The district attorney also confirmed the announcement made in The Advertiser early last week that officers employed on the Matson liners and other boats running to Hilo know something of the smuggling.

The district attorney traced the fifty tins of opium which were brought from San Francisco by the Matson steamer Wilhelmina, and though nothing was secured on the Enterprise during his stay at Hilo, the interior of the steamer is being broken "all to pieces" in an endeavor to get at dope which is believed to be secreted somewhere on the vessel.

In connection with the uncovering of smuggling operations on a wholesale scale, the district attorney has brought here a batch of witnesses and one prisoner; it is expected that another man will be in custody within a few hours.

Prisoner and Witnesses.

The prisoner is Felice Ludnek, cook of the steamer Enterprise, who is held on two charges, one of importing opium and the other of bringing it ashore. He was taken before United States Commissioner Charles Farnoux at Hilo, waived examination there, and was committed to the next term of the federal grand jury. His bonds were fixed at \$1000. So far he has been unable to secure them and is in jail. It is believed that Ludnek brought the opium ashore here on a previous voyage.

Among the witnesses brought from Hilo on the Mauna Kea yesterday are Capt. J. O. Peterson, warehouseman of the Matson Navigation Company; Dr. W. H. Schoening, Manager Cool of the Hilo Tribune; the Chinese bartender of the Wa'akea saloon; a Chinese named Awana, who is believed to have been offered dope by Baker, a Chinese frog-catcher, who is suspected of being a receiver and transporter of smuggled opium; Fred Low, who was on the bridge of the Enterprise when the officers stopped Baker; W. J. Breckons-bridge, steward of the Enterprise, and officers Kalina, Kaimi and Kama of the Hilo police force. The marshal has a warrant for another of the native policemen of Hilo, which is expected to be served before tomorrow so that the man can be brought before United States Commissioner Davis.

"Opium Ring" Anxious.

The district attorney stated that there was not the slightest doubt that extensive smuggling of opium has been going on at Hilo. When it got too hot for the smugglers at Honolulu they appear to have concluded that Hilo would make a good headquarters to which the stuff could be taken quietly and shipped as opportunity offered to this port.

The Chinese frog-catcher, who is now here, held as a witness, is believed to have figured largely in the buying of the dope, but whether on his own account or as agent for some other people is not stated. When the witnesses are subjected to interrogation it is thought that a good deal of valuable information will be extracted from them, which will make the outlook rather uncomfortable for others who may have been concerned in the "opium ring."

The district attorney believes that officers of liners touching at Hilo have been intimately concerned in the smuggling. He also has evidence indicating that police officers are implicated, and now, it is thought, he is bringing together the lines that will involve others who have been referred to as "higher ups."

ALL TIRED OUT

Hundreds More in Honolulu in the Same Plight.

Tired all the time; Weary and worn out night and day; Back aches; side aches; All on account of the kidneys. Must help them at their work. Let one who knows tell you how:

Mrs. J. Keating, 4733 Dauphin street, New Orleans, La., says: "I doctored for years from kidney complaint and finally became so run down from the ravages of this disease that I was no longer able to attend to my household. My kidneys were weak and the kidney secretions looked unnatural. I ached all over, but principally in my back and loins. There was a terrible, bearing-down pain in my hips that was hard to bear, and which robbed me of all energy. I had headaches and my sight often became blurred. I had taken many remedies without getting the slightest relief and had even tried plasters. It was at that time that I read about Doan's Backache Kidney Pills in the papers and procured a supply. I was quite ill when I began their use, but in two weeks was feeling much better. From that time on I improved, and after I had taken the contents of six boxes, I was cured. Every symptom of my trouble has now disappeared."

Two Years Later.

On May 9, 1908, Mrs. Keating confirmed the above statement, saying: "Yes, I am still in good health and have been ever since I was cured by Doan's Backache Kidney Pills two years ago."

Doan's Backache Kidney Pills are sold by all druggists and storekeepers at 50 cents per box (six boxes \$2.50) or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, wholesale agents for the Hawaiian Islands. Remember the name, Doan's, and take no substitute.
